

Health Science

Classroom Expectations Based on BOLT

- B = Be Respectful-** of yourself, teacher, peers, and equipment
O = Obey Rules -- Tardies, Passes, Food/Drink, Uniform Policy, Device Management, Electronic Device usage
L = Learn -- Actively participate, follow directions, be prepared for class
T = Take Responsibility- turn in all assignments on time

Positive Interventions and Supports for YOUR Choices

Praise and Respect	Extra Credit Options
Development of Self Respect/Character	Homework Passes
Positive Notes to Parents	Surprises :)
Continuation in Health Science Pathway for Clinical Classes in the future	

Classroom rules and procedures will be followed. If not, interventions will be implemented according to PCS and the student handbook. School Policy will be followed in managing classroom behavior. As a potential health care worker, it is **the student's responsibility** to develop self-control, professionalism, and appropriate behaviors. If you cannot, teacher interventions, parent contacts, student management referrals, and administrative input will be utilized. Remember that your behavior in the lower level classes **will** affect your recommendations for the upper level classes. Behavior in upper level classes **will** affect whether you go to clinical internships or not.

Students: I have read this classroom action plan and understand it. I will honor it in all Health Science classes.
